SUMMARY

Operations and finance professional with 3+ years building workflow automation, vendor systems, and executive reporting across AP, AR, and IT. Built every system on this resume independently, without a dedicated team or formal mandate. Portfolio: maddierochovansky.com.

QUANTIFIED IMPACT

- Automated invoice batch processing using Power Automate and Office Scripts, cutting run time by 89% (45 min to 5) across 15+ weekly cycles, recovering 10+ hours of AP capacity weekly
- Built an Excel pre-validation layer upstream of SAP, eliminating 40+ monthly manual posting corrections and reducing downstream reconciliation work
- Improved IT asset inventory accuracy from 85% to 98% across 120+ devices via a centralized Excel dashboard with aging reports and departmental breakdowns
- Audited 800+ software license records, identified 200+ duplicate entries and $6,000+ in annual cost savings, automated ongoing tracking to reduce review time by 75%
- Design and maintain a CFO-facing monthly health insurance cost allocation report across multiple subsidiaries, establishing a reporting cadence where none previously existed

PROFESSIONAL EXPERIENCE

Accounts Payable & IT Administrative Assistant (Operations, Finance & IT) *Oct 2024 – Present*

Mitsubishi International Food Ingredients, Inc. · Hackensack, NJ

- Own end-to-end vendor payment cycle across 600+ monthly transactions; automated post-run remittance communications via Power Automate, eliminating all manual email drafting after payment runs
- Built a vendor lifecycle system in Airtable covering onboarding intake, contract tracking, performance threshold alerts, and relationship management across 50+ active accounts
- Design and maintain a CFO-facing monthly health insurance cost allocation report across multiple subsidiaries with no prior reporting cadence
- Built a cross-functional capacity and resource model with weekly hour breakdowns and scenario planning, adopted by leadership for headcount planning and role definition
- Designed centralized SharePoint infrastructure with two department hubs, automated intake forms via Microsoft Forms, and Power Automate routing flows eliminating manual document sorting
- Led Apple Business Manager rollout across 55+ devices and 4 carriers; mapped invoice workflows and IT asset lifecycle in Lucidchart, adopted organization-wide as onboarding documentation with SOPs

Accounts Payable Coordinator *Feb 2023 – Oct 2024*

SCC Soft Computer · Clearwater, FL

- Redesigned expense report and approval workflow, reducing cycle time by 30% and eliminating recurring manual routing errors that had created audit exposure
- Managed 80+ active vendor accounts including payment terms negotiation, onboarding, and dispute resolution in a high-volume AP environment
- Processed 300+ monthly invoices in SAP with 100% on-time payment across check runs, ACH transactions, and month-end close

Accounts Receivable Coordinator *Jun 2022 – Feb 2023*

SCC Soft Computer · Clearwater, FL

- Wrote SQL queries to extract invoice data, cross-reference contract terms, and resolve billing variances across 500+ accounts; maintained 99%+ processing accuracy on 200+ monthly transactions in SAP
- Led weekly collections calls with the sales team, maintaining consistent recovery on outstanding balances across a high-volume AR portfolio
